### JULY 2006, NEWS UPDATE

Greetings in the mighty name of Jesus. Trust this finds you well and enjoying the blessings of the Lord. Since returning from Europe I have been ministering around Australia. We had a wonderful time at the inaugural Alliance International Ministries Australasian Summit in the middle of June, with several pastors and leaders in attendance. We had opportunity to pray with them all and many received words of encouragement and direction from the Lord

I have ministered around Melbourne and Victoria, and also in Sydney and Newcastle. Praise God for those who have been saved and many who have made commitments to seek first the Kingdom of God. It seems that with all the pressures that people face today so often 'things' become the priority, but it is exciting to see how, when challenged by the Word and the Holy Spirit, so many genuinely desire to put the Lord back in His rightful place in their lives.

I have prayed with many people for breakthroughs in various areas of their lives. One man shared how he had been grieving for his wife who had died several years ago, but after prayer felt totally released. Another young person was set free from depression. One lady shared how all pain around her heart had left following prayer. Several people have testified to being set free from various kinds of addictions and there have been many prophetic words over lives. One visitor to a meeting interrupted me as I was prophesying to ask who had told me about them! In one meeting just before I was due to preach I sensed the Holy Spirit telling me to share from a different scripture than the one I had prepared. I did so and then prayed for many. One lady shared how amazed she was with the Word I had over her life as the prophecy had answered all her questions.
