## Ministry Report...

The past two months have been busy and blessed as I have ministered in Australia and the USA.

The church meetings have been powerfully blessed by the Lord with many people receiving prayer. Testimonies have been received of people being freed from fear and anxiety, along with some good physical breakthroughs.

There has been a good flow of prophetic ministry into churches and individuals, with many receiving encouragement, confirmation and direction from the Lord.

It has been exciting to see people giving their lives to the Lord and many committing to new

levels of relationship with Him.

My time in the USA was really blessed and directed by the Lord. I ministered in many meetings and also spent lots of time strengthening friendships. I made several new “Kingdom connections” which I believe will be very important and fruitful in the coming days.

I ministered at a Missions Conference in Maryland and also spent time meeting with leaders in Virginia. Due to time constraints I was only able to spend part of one day at the Alliance International Ministries Summit in Maryland. It was a blessing to catch-up with friends from various countries and

also hear how the Lord is leading many in their churches and ministries.

I ministered in Indiana for the first time and praise God for the powerful meetings we enjoyed with many being clearly impacted by the Holy Spirit.

Again there was a good flow of the prophetic along with prayer for many regarding various challenges in their lives.

I believe we are living in important times where the Lord is connecting people strategically for His Kingdom purposes.

As I minister in Australia and England in the coming weeks we are believing for the Lord to continue to touch many lives powerfully.

## Heather's Health Corner...

### Yoghurt – a superfood!

Did you know that yoghurt is one of the best treats you can eat?! As long as it is 'real' yoghurt i.e. no added sugar and full of probiotics (Greek Yoghurt is one of the best) yoghurt does good things for our bodies!

Here's just a few of its benefits: Yoghurt curbs the rise of high blood pressure by up to 31%, the probiotics in yoghurt kill bad bacteria in our bodies with the live active cultures found in it, regular consumption aids with memory recall, yoghurt satisfies hunger better than a chocolate bar ever will! Why not have some today?!
