

JOHN CAIRNS MINISTRIES

Equipping people to be victorious disciples of Jesus Christ

October-November 2014 News Update

Ministry Report

The past couple of months have been busy and exciting as I've ministered in Australia, New Zealand and South Africa. I am always so blessed and encouraged to see the Lord at work impacting the lives of people. It's been a privilege to speak in churches, at pastors and leaders conferences and meetings, as well as sharing at youth gatherings. I've also been blessed to spend much time with individual church and business leaders.

In most meetings there has been a dynamic flow of the Holy Spirit with prophetic ministry to whole churches as well as individuals. Words of knowledge have flowed and, as people responded, we have witnessed people being healed. Praise God for people who have made first time commitments to become followers of Jesus Christ along with many making a fresh commitments to make Him the centre of their lives.

In some meetings the Holy Spirit has moved before I preached and lives have been powerfully impacted and changed. One lady testified to major spinal problems being healed. A man publicly testified that, after prayer, the tinnitus he had suffered for years was gone. Several shared how their necks had been healed from various ailments. We have received testimonies from people who have been set free from years of addiction. One lady showed how her wrists, which she had apparently been unable to use properly for years, were totally healed and fully functional. Praise God for many baptized in the Holy Spirit and released into new levels of ministry.

In many of the places I visit there is excitement and anticipation of greater things about to happen. Let's press on to know the Lord and we will witness, and participate in, those greater things.

We are really grateful for those who partner with us and support our work in Africa. Below are some photos of a few of the recipients of microfinance loans. Through these loans, individuals are able to start small businesses and become self sufficient. Microfinance loans are then repaid and finances made available to others, impacting entire communities.
